Growth Mindset

Prof. Djohan Yoga

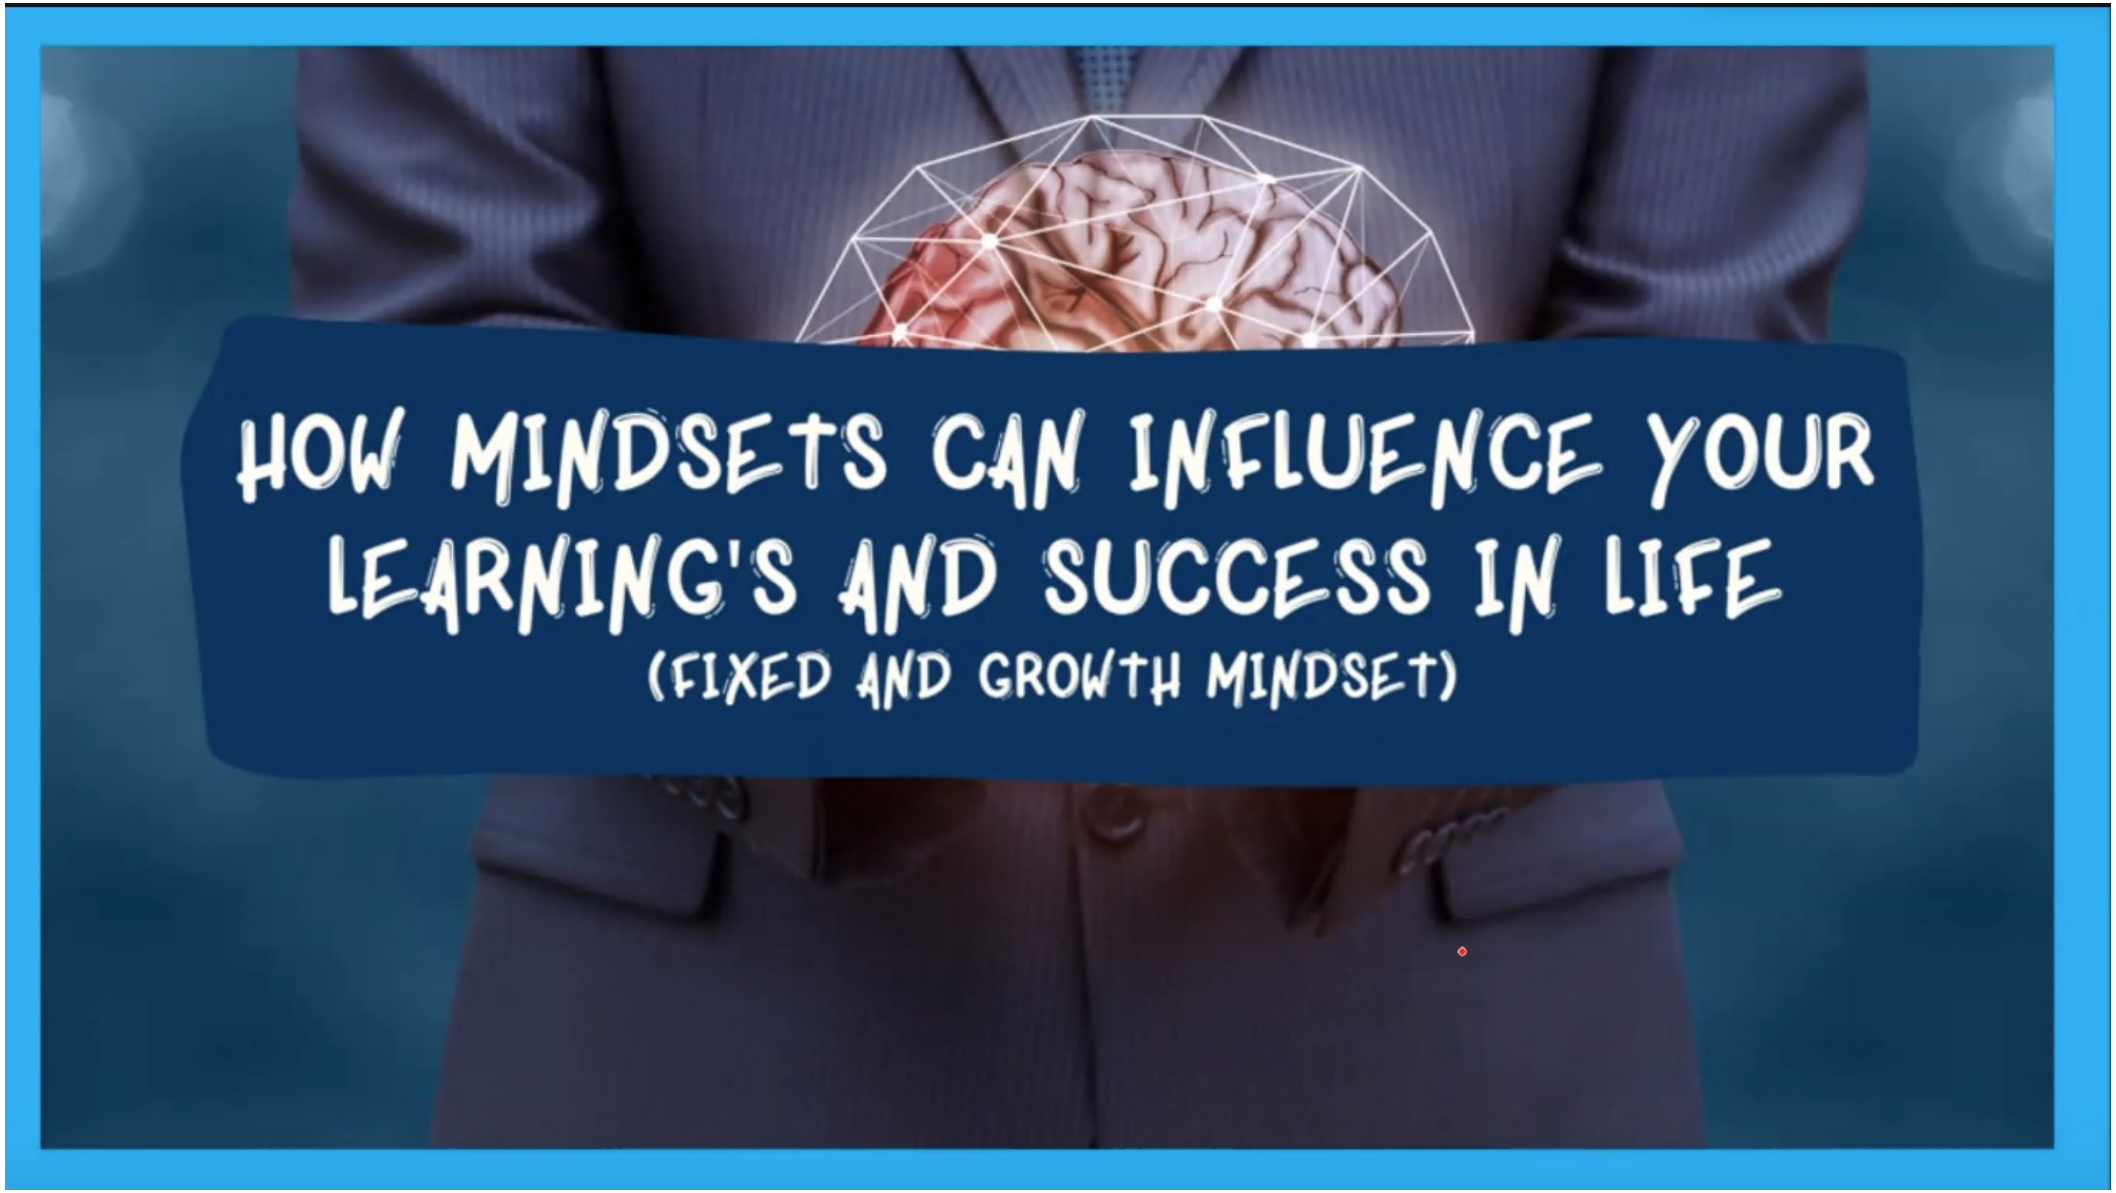

BukRate.com
Ada faktor lain yang jauh lebih penting dari kecerdasan yaitu mindset.
——Carol S. Dweck——

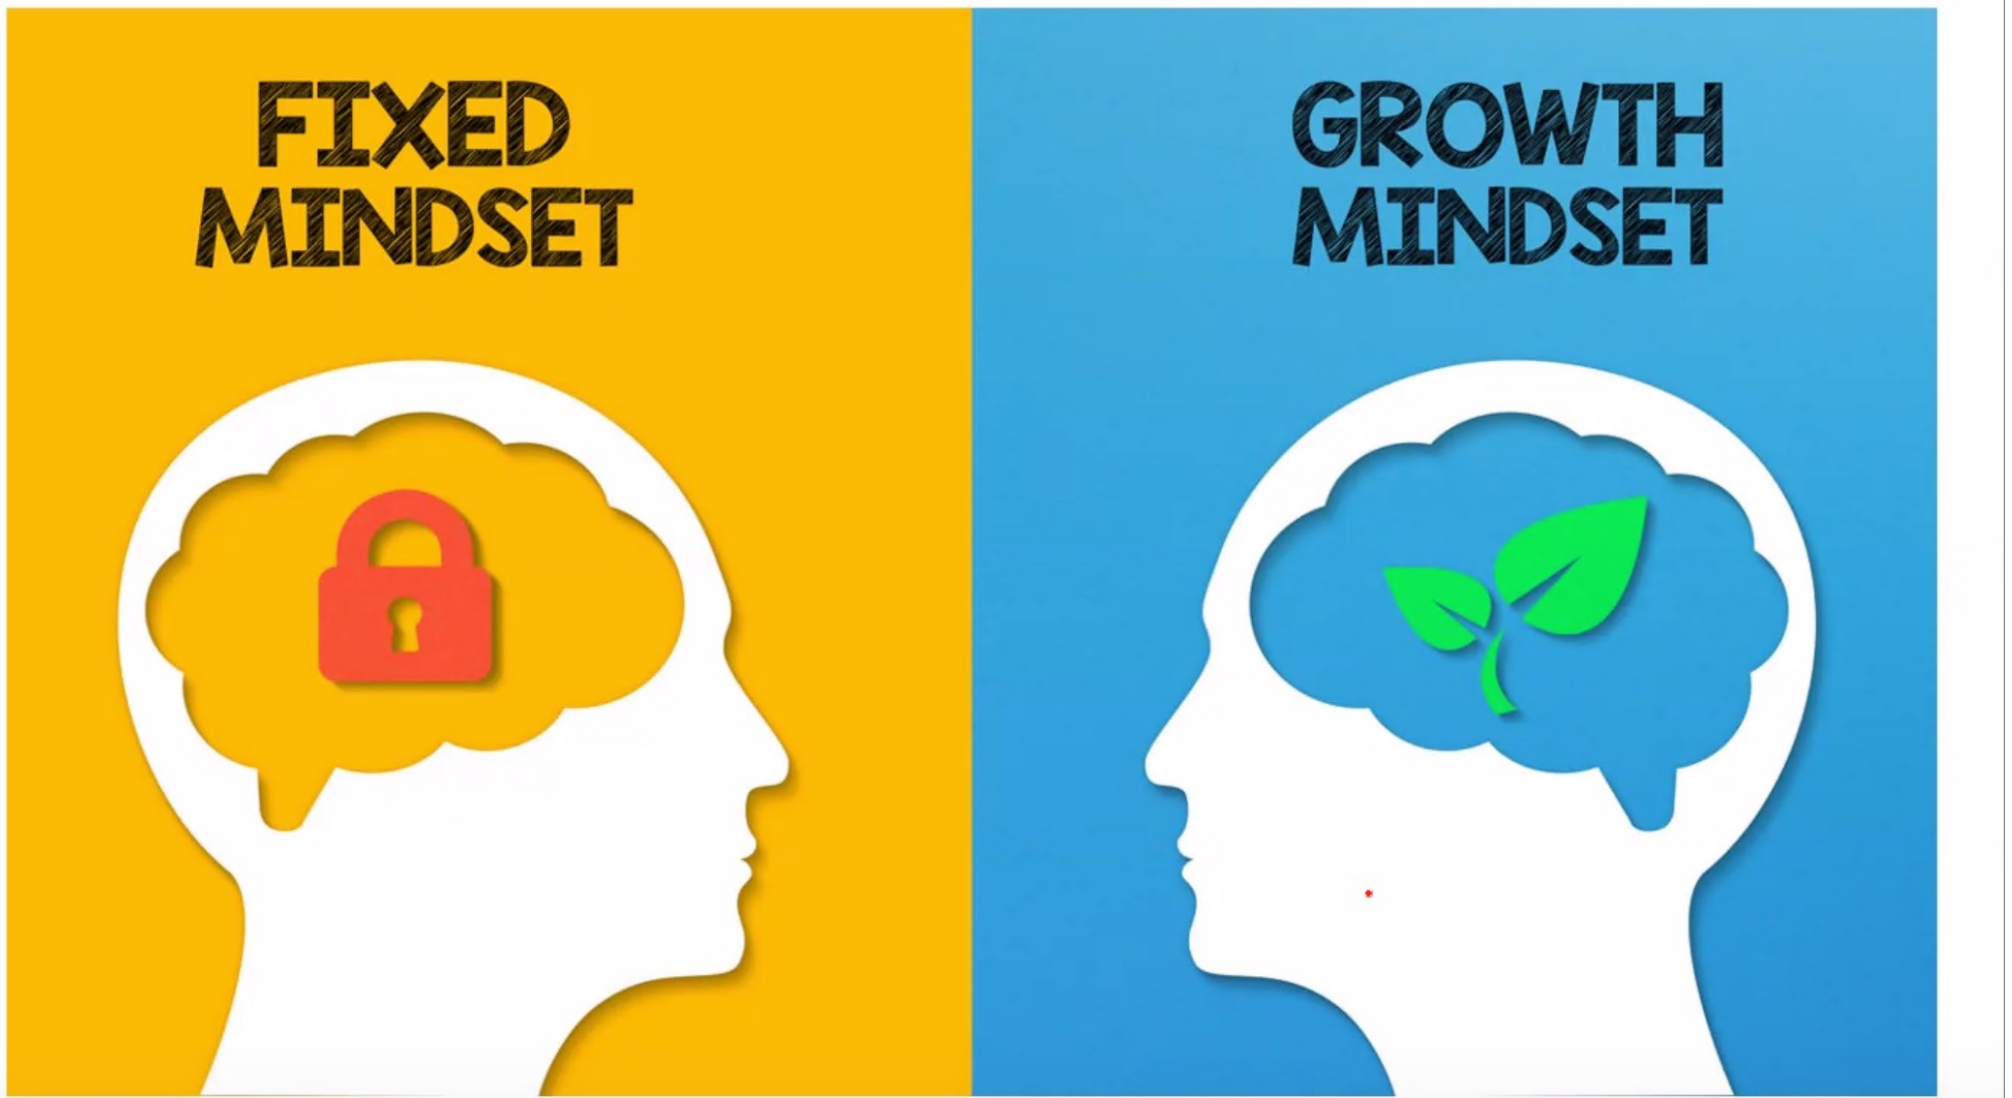

What is Mindset ....

Kumpulan keyakinan dari seseorang yang akan menentukan "reaksi dan pemaknaan" nya terhadap suatu kejadian atau peristiwa.

How Mindset are Formed

Habit

HOW MINDSETS CAN INFLUENCE YOUR
LEARNING'S AND SUCCESS IN LIFE
(FIXED AND GROWTH MINDSET)

FIXED
MINDSET
GROWTH
MINDSET

Types of Mindset

Fixed Mindset
Keyakinan bahwa seseorang lahir dengan kecerdasan dan kemampuan yang **tetap** dan tidak bisa diubah lagi.

Growth Mindset
Keyakinan bahwa seseorang lahir dengan kecerdasan dan kemampuan yang bisa **dikembangkan** lewat proses belajar & berusaha

Base of Thinking

- **Fixed Mindset** : tercipta dari **CBT** – ***Constraint*** *Based Thinking* di mana segala perubahan dianggap menjadi "**kendala**" sehingga betah berada di zona nyaman.
- **Growth Mindset** : tercipta dari **OBT** – ***Opportunity*** *Based Thinking* di mana segala perubahan dianggap "**peluang**" untuk bertumbuh sehingga senang dengan perubahan.

Fixed vs Growth Mindset People

The 80/20 Pareto Formula

R = 80% M + 20% A

R = Result

M = Mindset

A = Action

10%
of life is made up of what happens to you
90%
of life is determined by your reaction to what has happened to you

The 90/10 Covey Formula

O = 90% R + 10% E

O = Outcome

R = Response → Mindset

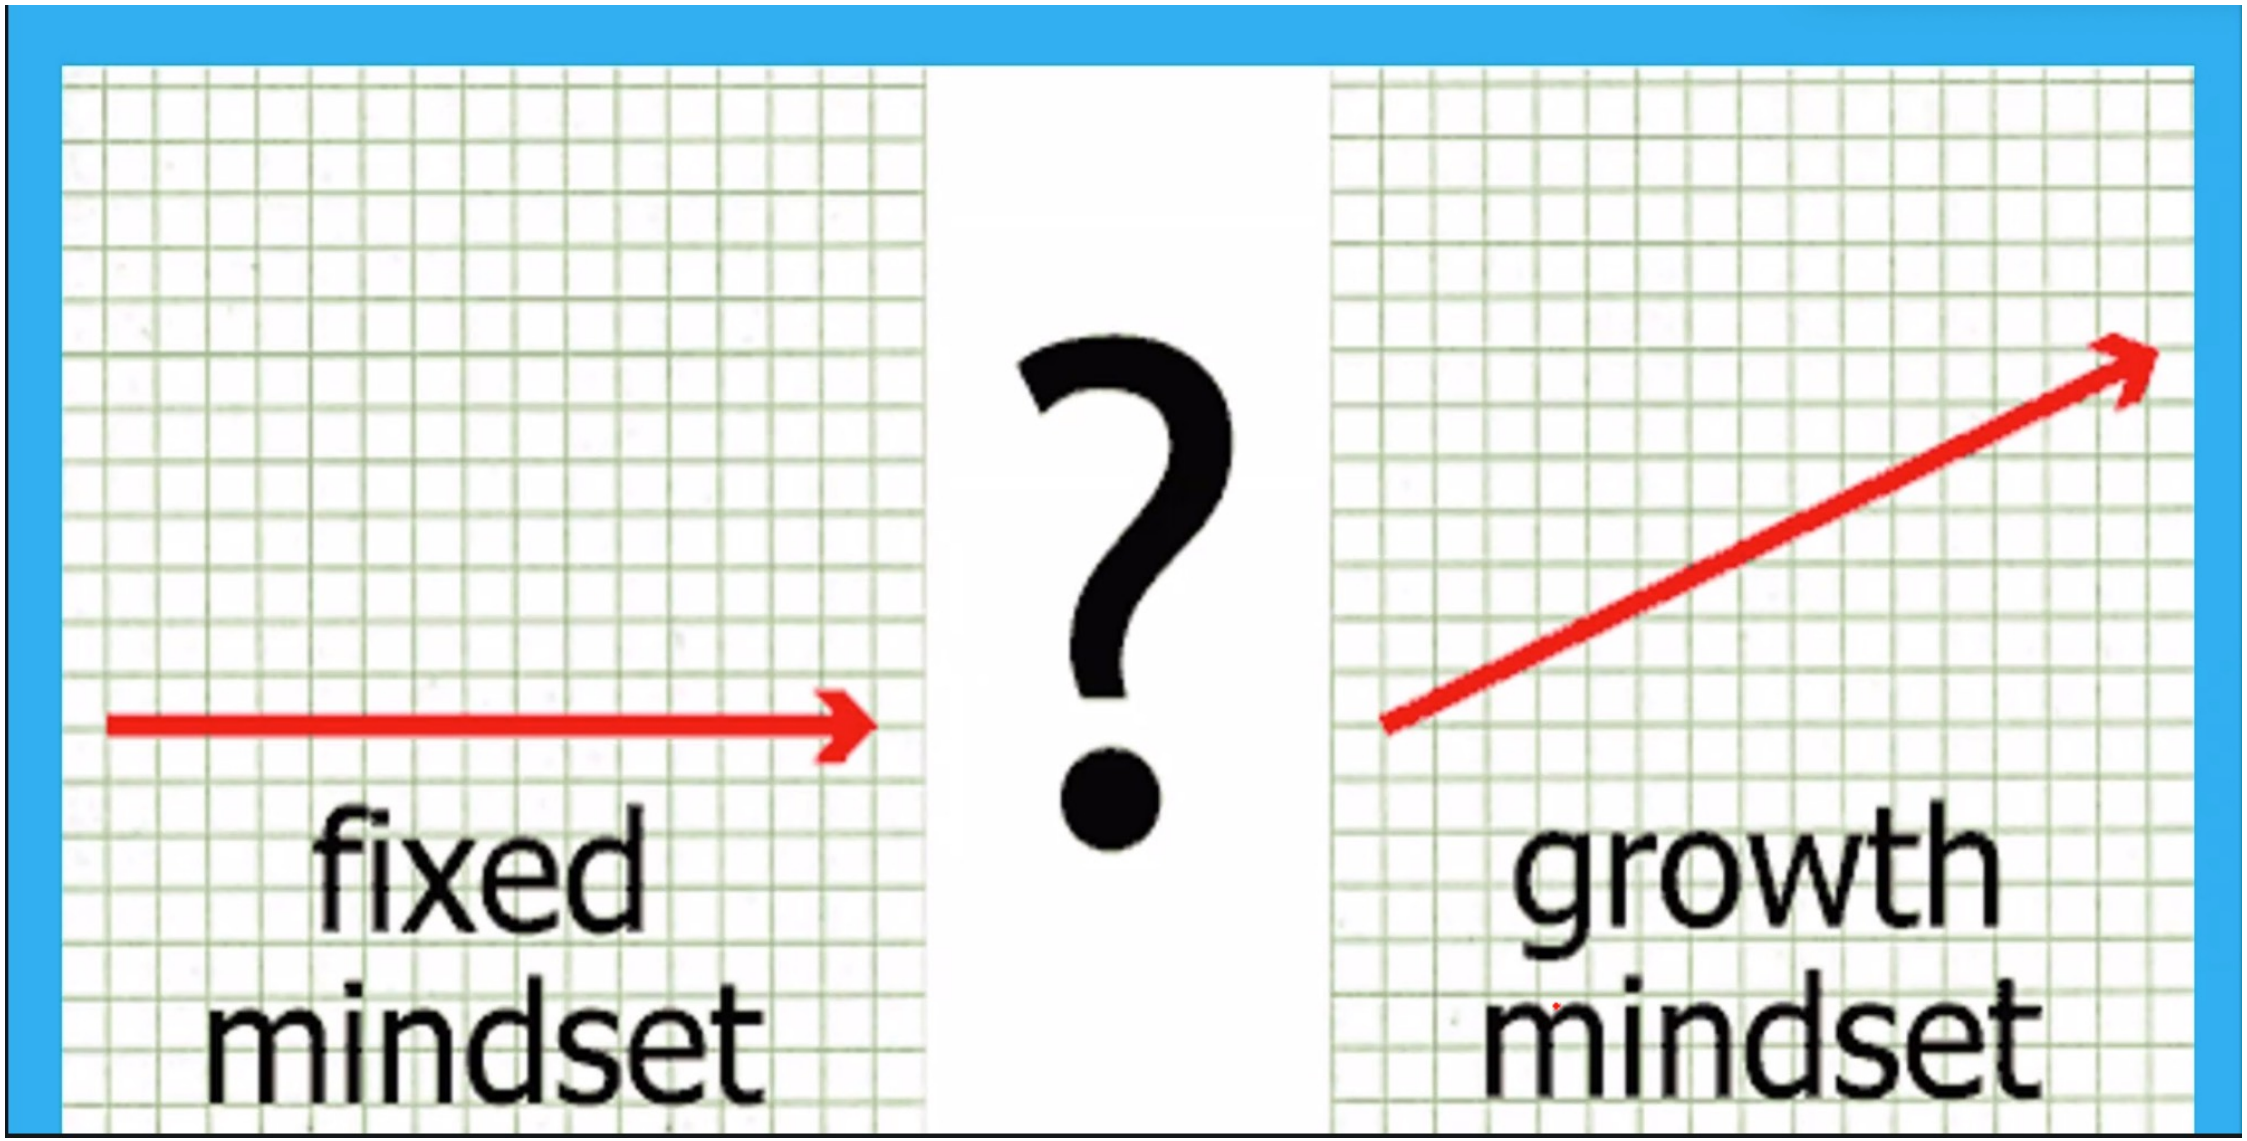

E = Event

Interpretation of MAP Result

Group	Explanation
FF (0 - 20)	Strong Fixed Mindset
FG(21 - 33)	Fixed Mindset with some Growth Mindset
GF(34 - 44)	Growth Mindset with some Fixed Mindset
GG(45 - 60)	Strong Growth Mindset

THE GROWTH MINDSET CONTINUUM

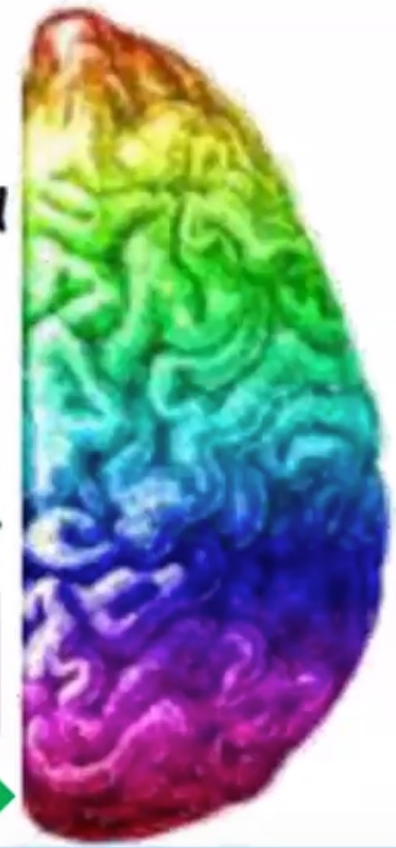

What can you do to change your Mindset and

GROW?

I won't do it	I can't do it	I want to do it	How do I do it?	I'll try to do it	I can do it	I will do it	Yes I did it!

FF → FG → GF → GG

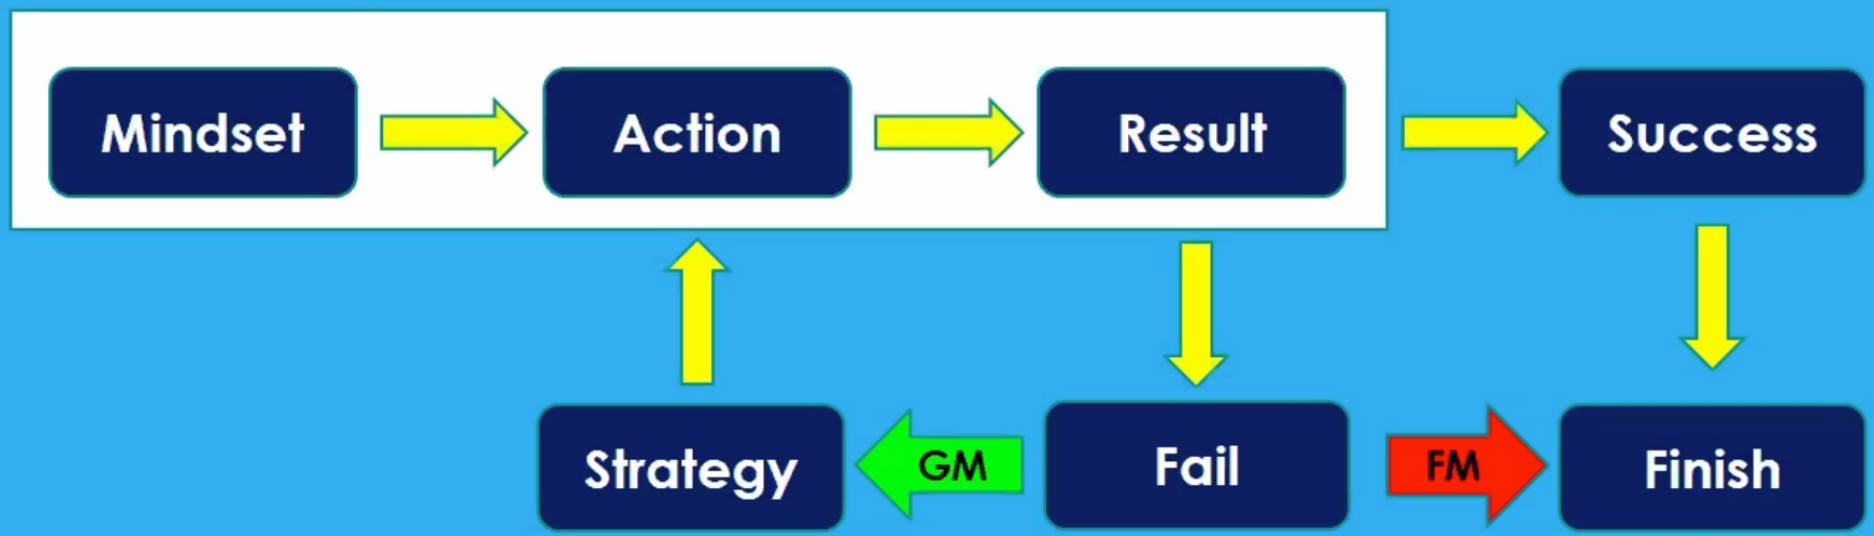

GROWTH MINDSET
WHAT IT IS
HOW IT WORKS
WHY IT MATTERS

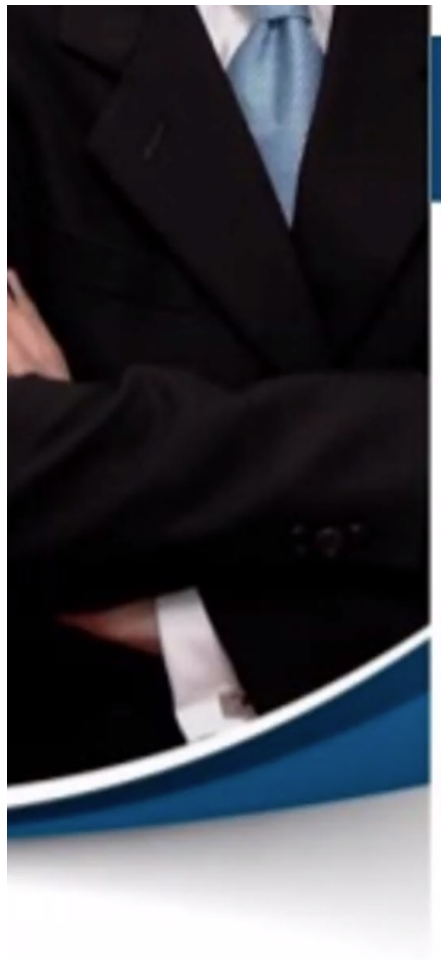

Growth Mindset …

- Cara **bersikap** terhadap sebuah kejadian, cara **menghadapi** masalah, dan cara untuk **membangkitkan** diri sendiri pada saat harus menerima kegagalan & terpuruk.
- Dalam keseharian terlihat dalam bentuk "*karakter non-kognitif*" ; ke**gigih**an, ke**sabar**an, ke**tekun**an, ke**tangguh**an dan sejumlah sifat-sifat positif lainnya.

How Growth Mindset Work

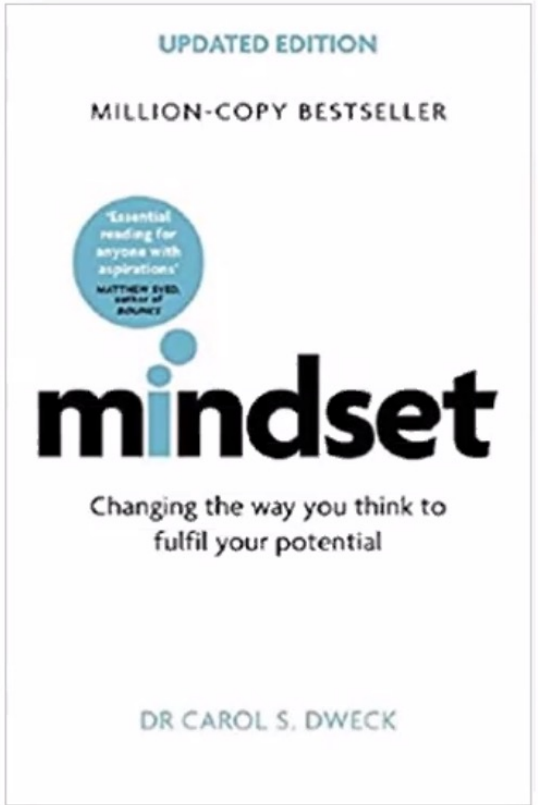

What you believe affects what you achieve

Bill Gates Dec 15 review of book: Mindset (Carol Dweck)

"In experiment after experiment, Dweck has shown that the fixed mindset is a huge psychological roadblock—regardless of whether you feel you were blessed with talent or not. If you have the fixed mindset and believe you were blessed with raw talent, you tend to spend a lot of time trying to validate your "gift" rather than cultivating it. To protect your self-identity as someone who's super smart or gifted, you often steer clear of tough challenges that might jeopardize that identity. Here's how Dweck puts it: "From the point of view of the fixed mindset, effort is only for people with deficiencies…. If you're considered a genius, a talent, or a natural—then you have a lot to lose. Effort can reduce you.""

https://www.gatesnotes.com/Books/Mindset-The-New-Psychology-of-Success

No matter what your ability is, effort is what ignites that ability and turns it into accomplishment.

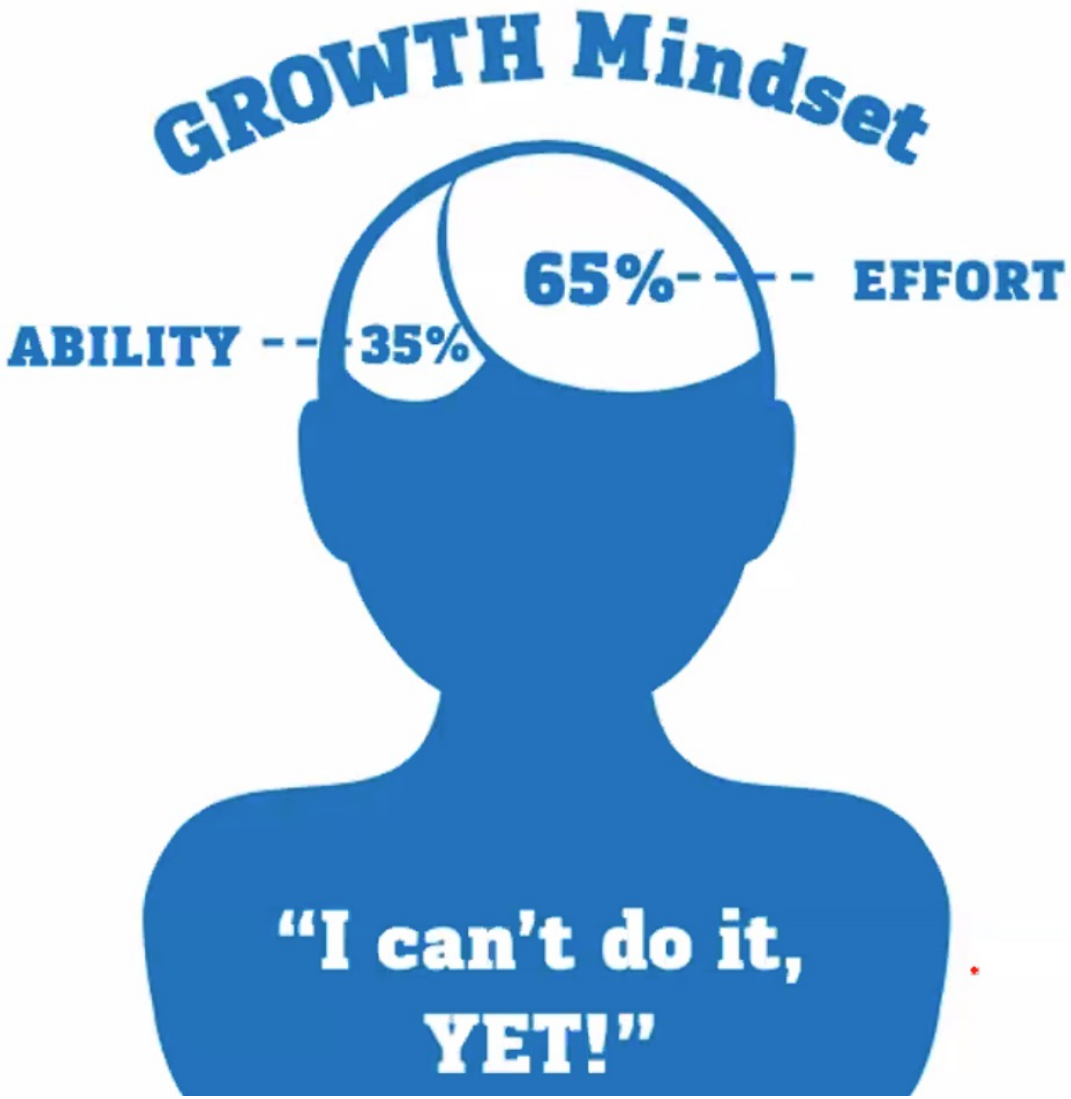

The Growth Mindset Formula

A = 65% E + 35% A

A = Accomplishment

E = Effort

A = Ability

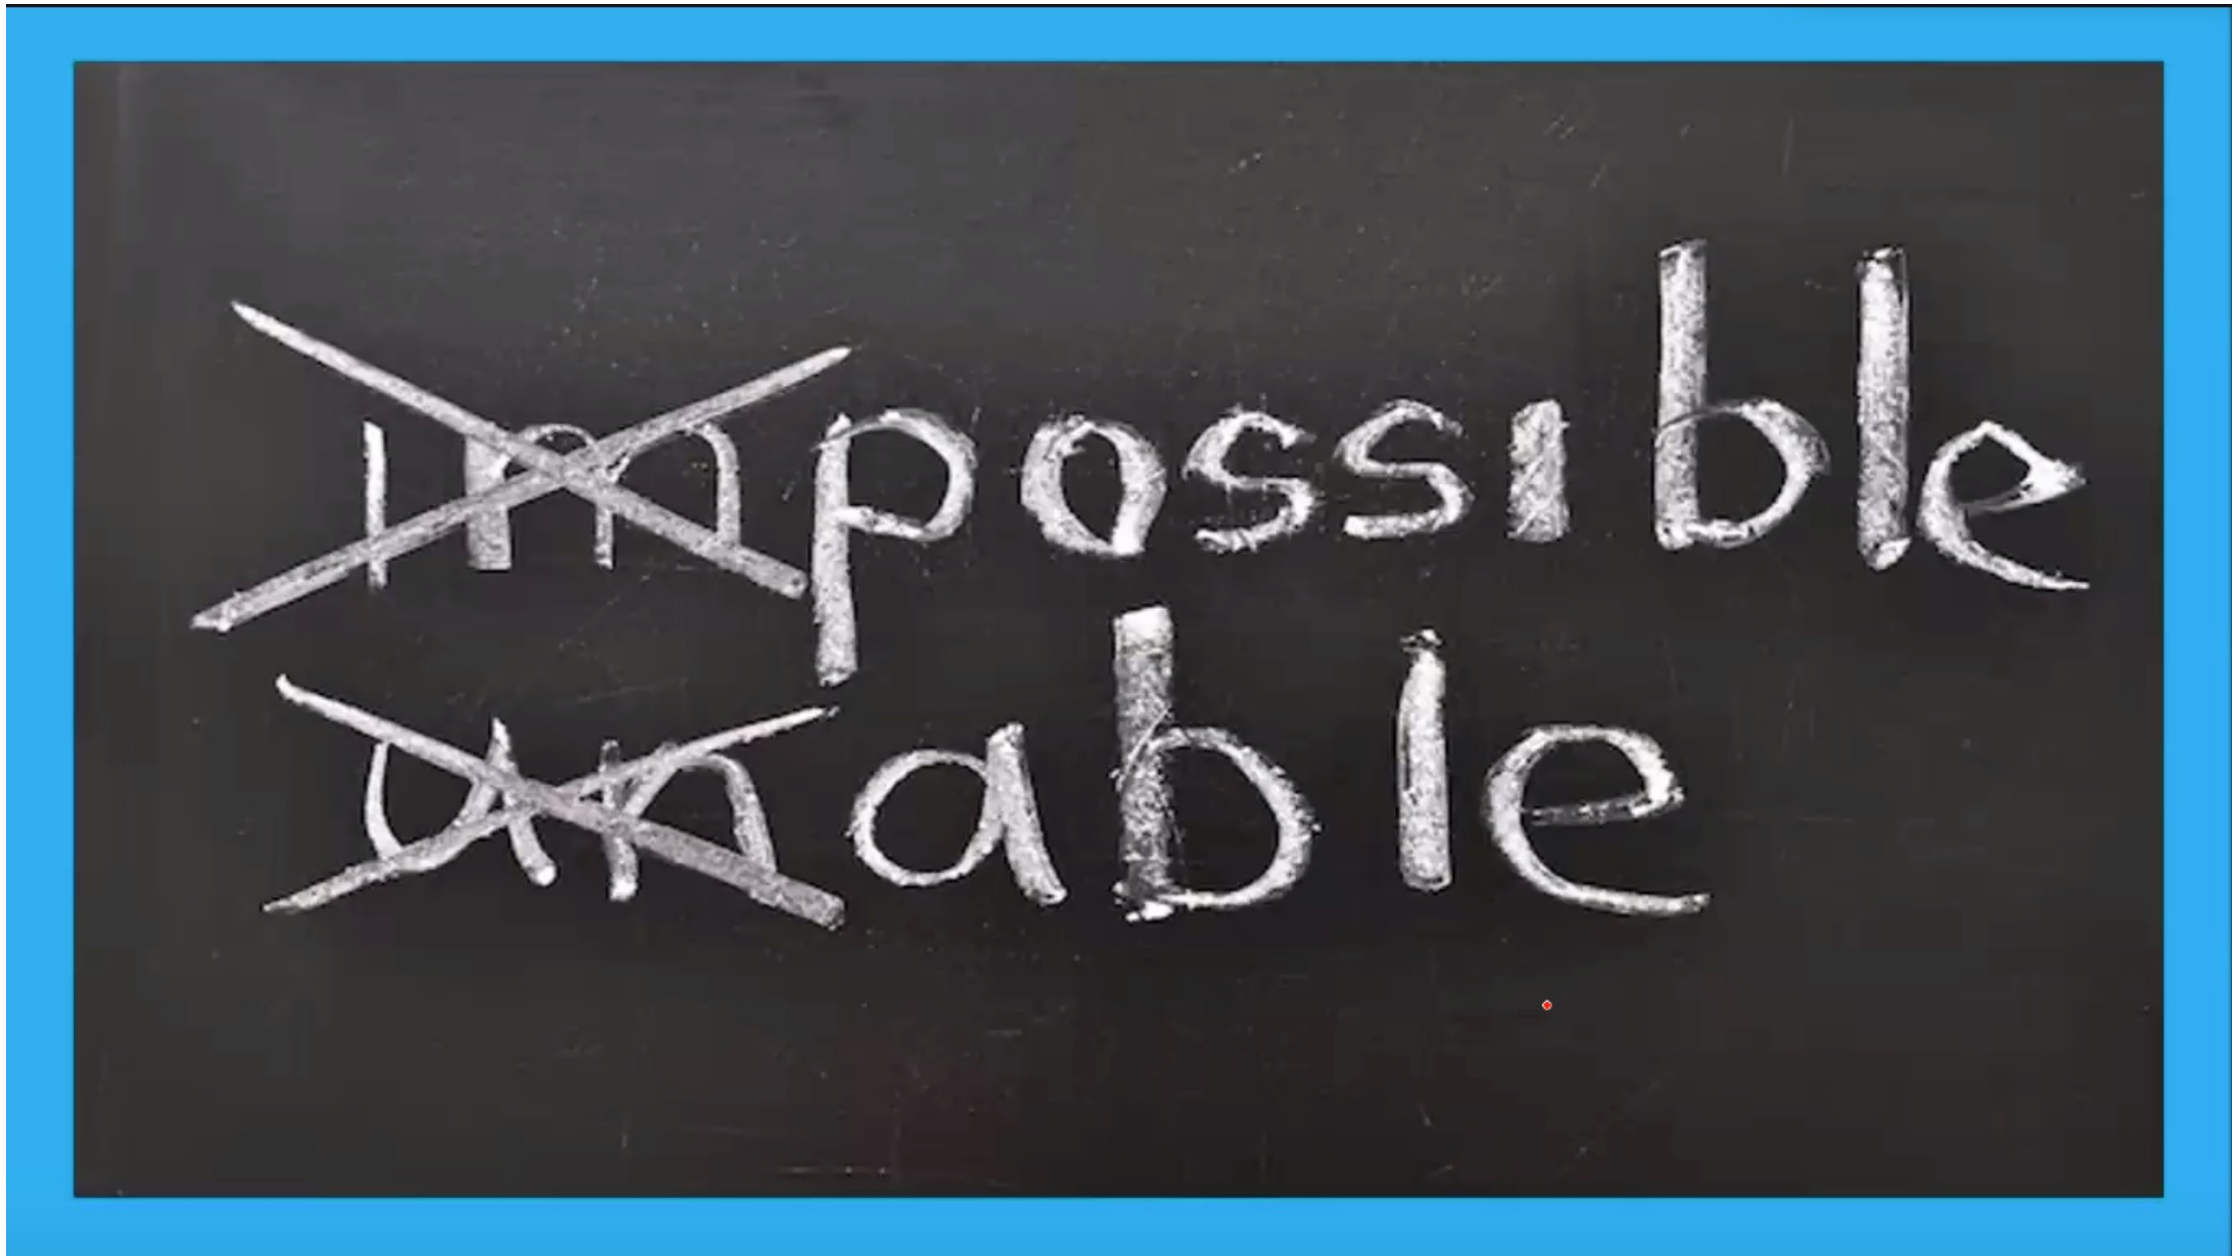

GROWTH Mindset
65%
EFFORT
ABILITY
35%
"I can't do it,
YET!"

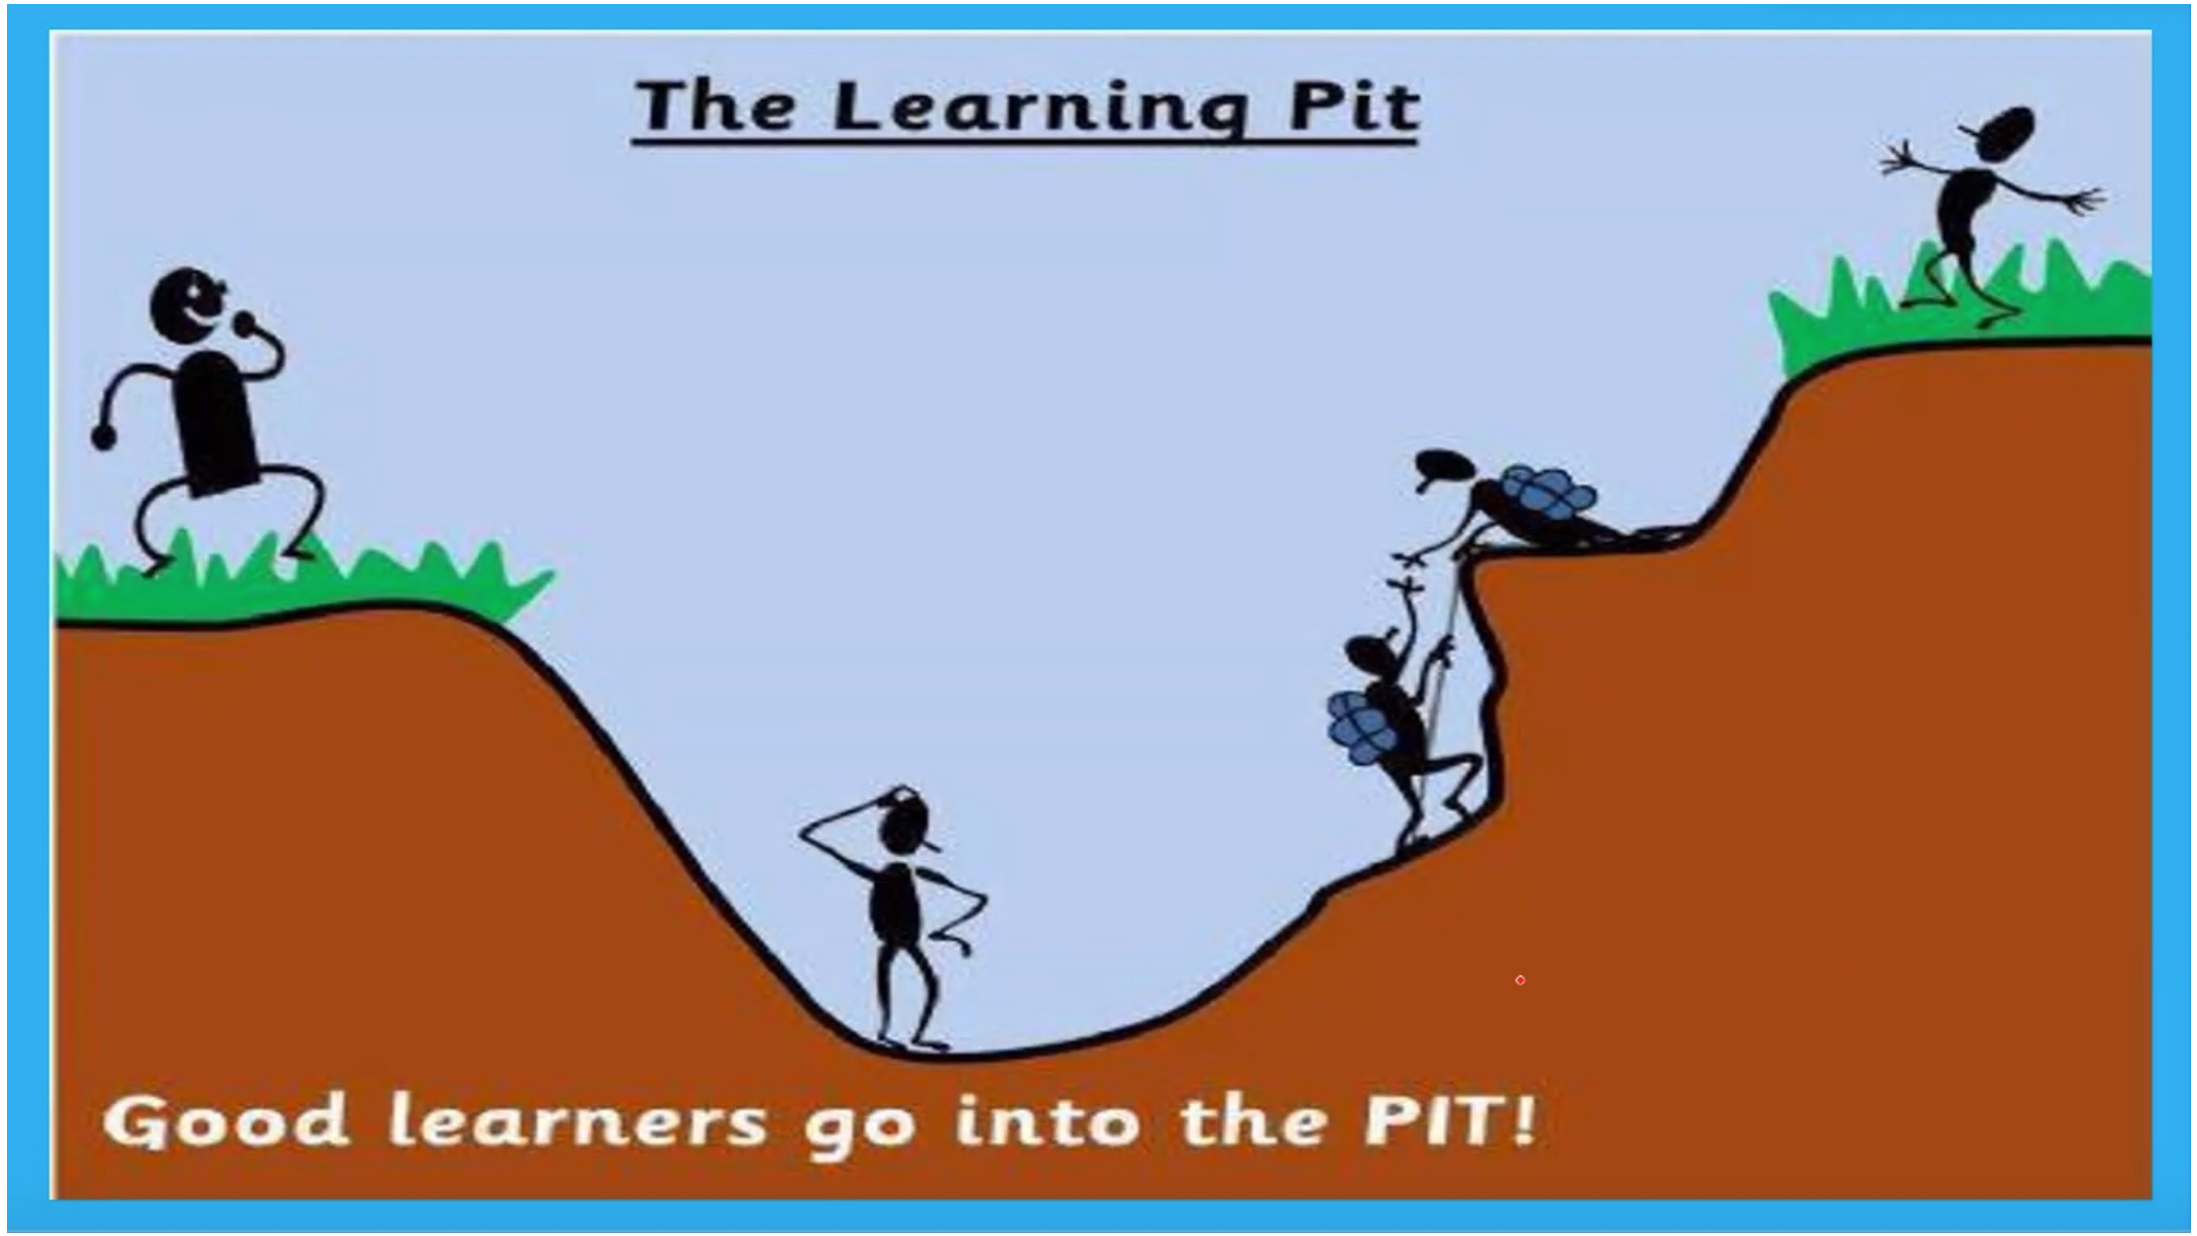

The Power of YET!

The power of believing that you **can** improve.

So when you can't do something now – it is a can't do it 'YET'!

impossible
unable

Shiftting From FM to GM

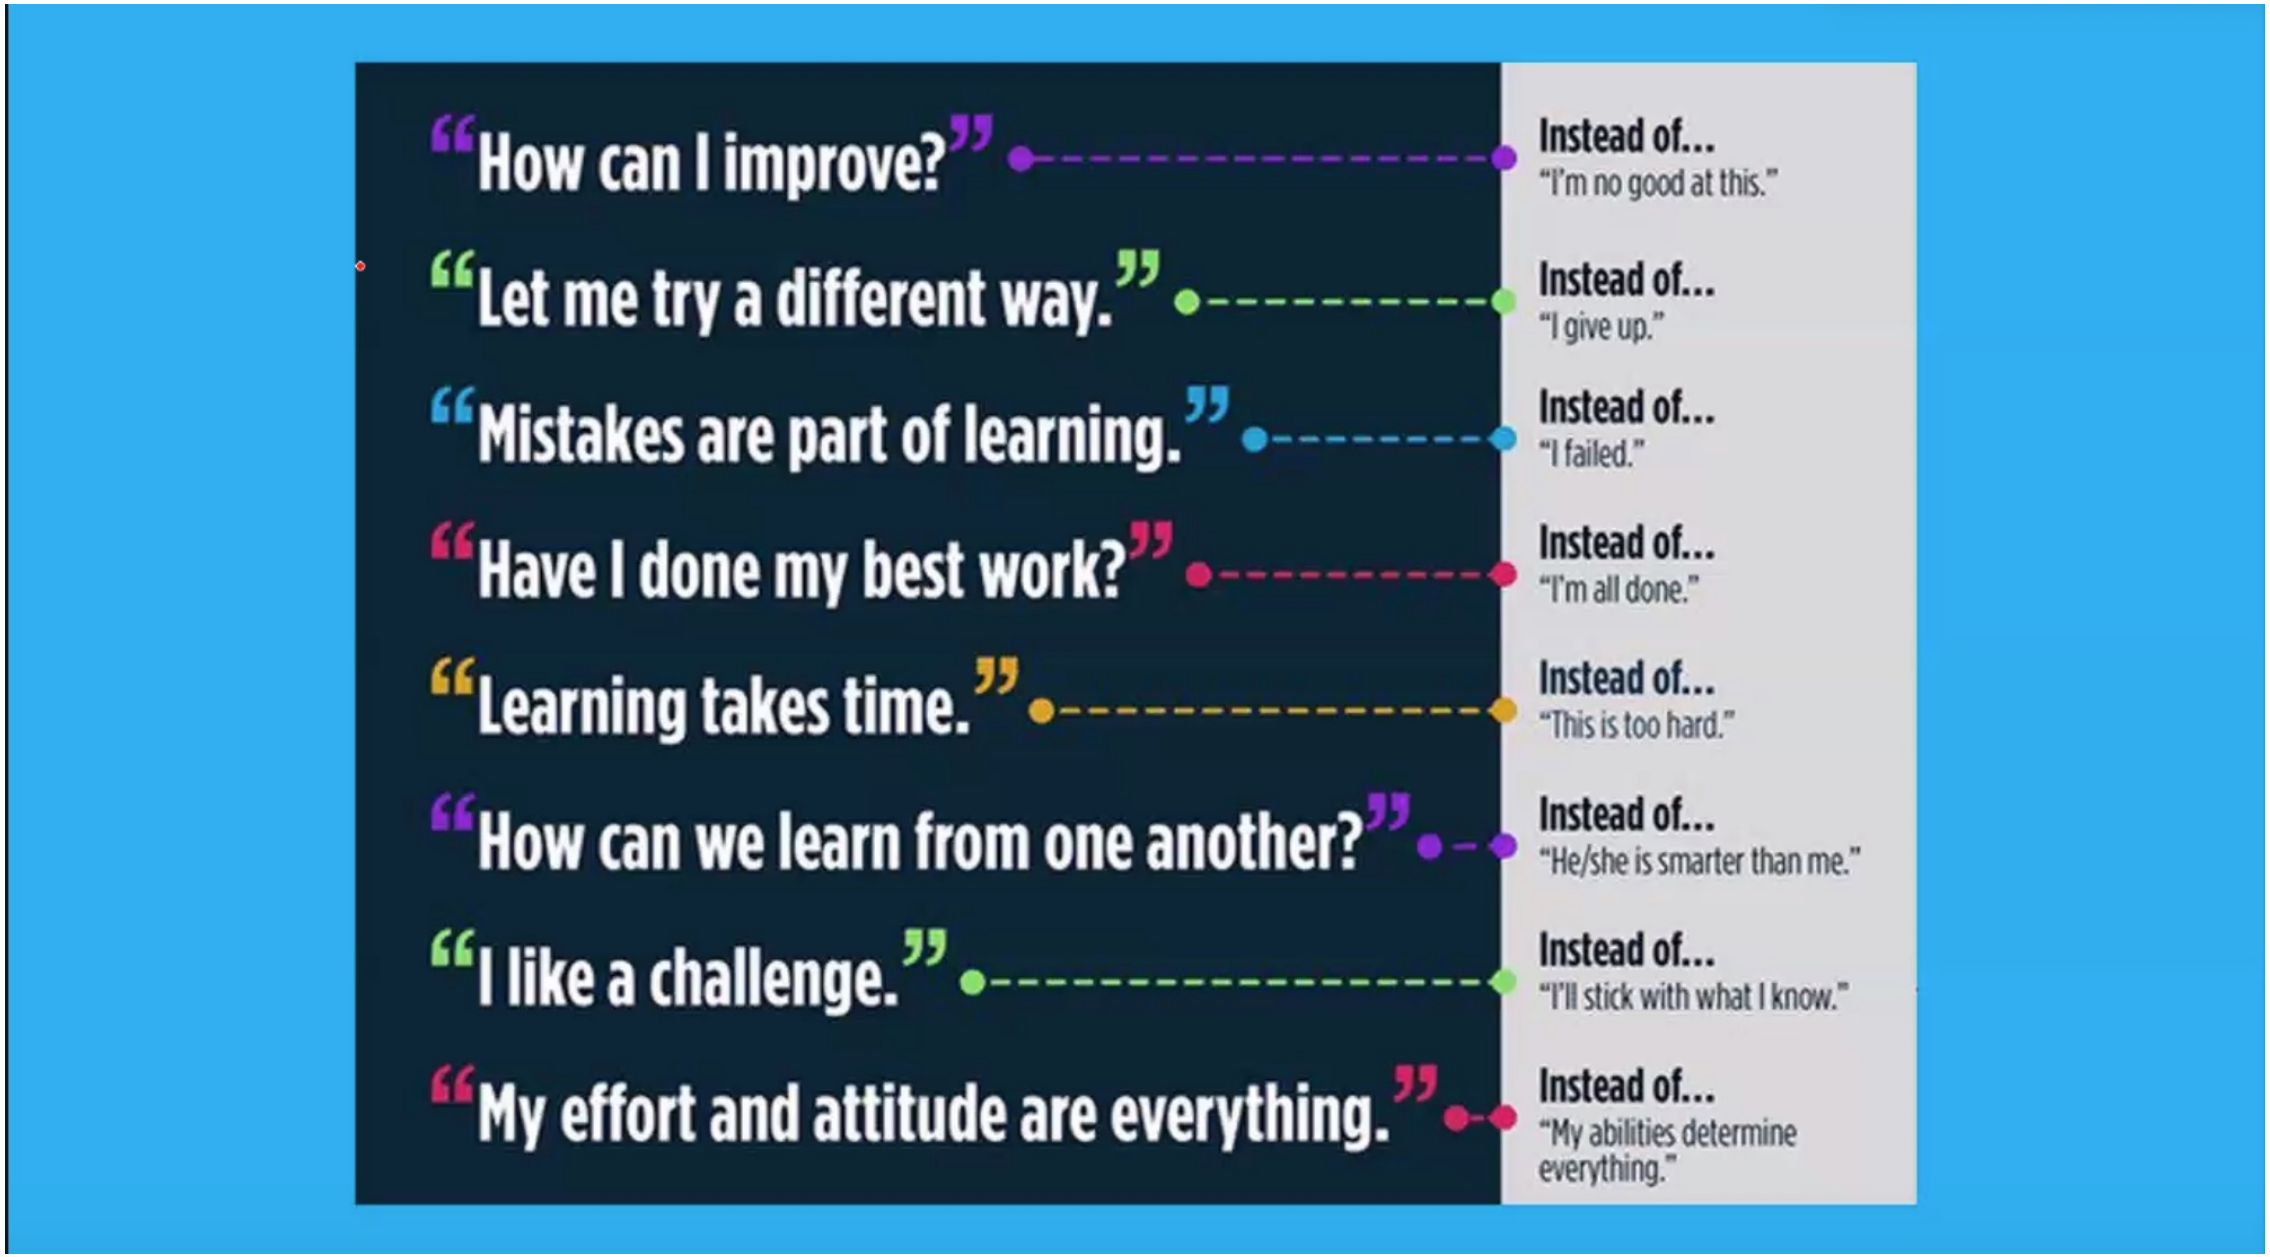

4 Steps to a Growth Mindset

Shifting from Fixed to Growth

"How can I improve?"
Instead of...
"I'm no good at this."
"Let me try a different way."
Instead of...
"I give up."
"Mistakes are part of learning."
Instead of...
"I failed."
"Have I done my best work?"
Instead of...
"I'm all done."
"Learning takes time."
Instead of...
"This is too hard."
"How can we learn from one another?"
Instead of...
"He/she is smarter than me."
"I like a challenge."
Instead of...
"I'll stick with what I know."
"My effort and attitude are everything."
Instead of...
"My abilities determine everything."

FM Voice vs GM Voice

Fixed Mindset Voice	Growth Mindset Voice
Saat saya gagal, saya merasa tidak mampu	
Saat saya melakukan kesalahan, saya akan menyerah	
Saat saya menerima tugas yang belum pernah saya kerjakan, saya akan menolak	

The New Way to Learn

- Menghadapi hambatan, tantangan dan kesulitan serta belajar dari kesalahan dan kegagalan adalah cara belajar yang baru.
- Setiap terjadi kesalahan atau kegagalan, itu pertanda otak sedang belajar dan berkembang jadi tidak ada yang perlu ditutupi atau dirisaukan.
- Kesalahan atau kegagalan bukanlah tanda dari kelemahan melainkan itu tanda bahwa proses belajar sedang berlangsung sehingga jangan pernah berhenti. Teruslah belajar sebab keberhasilan sudah dekat.
